

## The first scene:

\*the first scene happen in Liam's home

[in brackets, beneath each scene header (like this) briefly describe the purpose of the scene. Explain how it establishes the plot or moves the plot forward. Expand on what it does for the story in terms of messaging. ..You don't need to do a lot of writing, just try and sketch the basics. Sometimes this kind of writing is just good process, as it can make you aware of things that you might have overlooked or not considered. Or, if you did consider it, it will help you clarify by making it explicit. ..What you have on the other document is great for this. Just copy paste those things and add them here, and add a few more sentences to work out what I have described above].

Narrator (Liam): My name is Liam, 20 years old. I live with my father, a simple car mechanic. People always say that my father is not from this era and maybe that's why mother left our family when I was 10 years old. I won't make the same mistake as my father did. Therefore, the previous introduction is just my apparent identity. My other identity is a cutting-edge player in the VR game Macrocosm of Militaryskill.

Dad: Hey, don't eat so fast. That's not healthy.

Liam: I'm already full.

Dad: Are you going to play that VR game again? Have you finished your homework?

Liam: Yeah, I have.

Dad: Don't play games all the time. It's bad for you; you should go outside more.

Liam: Those are all meaningless things. Don't ask me to pay attention to those boring things like you did!

(Shut the door)

Liam: Nowadays, except my father, the only people who watch news on Television rather than MoM's broadcast are only 70 to 80-year-olds.

## The Second Scene:

The Second Scene happened in a forest of MoM, where Liam log in the game.

Computer Voice: Loading, Connected, Welcome to Macrocosm of Militaryskill. You received a private message from the MoM system.

Liam: \*Click, Special Limited Event? Rare Ore Mining ... You will get one free mining machine per day. Mine Crazy Diamond ore, and exchange it to GMs... Boost the military rank to “Diamond Master”?! If I remember correctly, there was a similar event 10 years ago. At that time, the occurrence possibility of Crazy Diamond was about 0.03% and that “Diamond Master” is Top 0.1% gamers in MoM, the elite of the elite! I have an idea, pretending to be a girl will make it easy for me to trick male players into giving me their mining machines. They always fall for it. \*Change the character into a female character

## The Third Scene

The third scene was also in that forest. However, because Liam used many mining machine here, he cut down all the trees.

Liam (female version): There is no Crazy Diamond at all here! (Shoot to the outside of the room)  
(male voice) Dad, I’m going to work overnight.

Dad: No, you can’t! You stupid boy! \*Knocking the door. Did you lock the door? I won’t wake you up or bring you to school! If you are late tomorrow, you will lose your allowance.

Liam: Come on. No one really goes to school. Everyone just uses VR School now.

Dad: \*Sigh. I guess I’ll just leave him be. His Mother has already left for about 10 years. Let me clean up what she left before again.

Liam: \*resume the game. (female voice) Player detected nearby. Conceal those mining machines. Let me see, Holylight\_Rogue, Military Rank was “Gold Master”, that’s even way higher than my characters’ highest rank!

\*Message from fake GM

Liam: \*read the message... Looks like I got a message from GM\_Holylight\_Rogue... This guy is a GM, and he wants to help me out. GMs always have good items... Great! I’m going to be rich! Let me write back... I’m new to this game. Can you come and help me get started? Okay.

\*One minutes later

Fake GM: Are you Liam? I’m GM Holylight\_Rogue. How can I help you?

Liam: Yeah, that’s me, I just received an email about ore mining from the system. Could you tell me how to use this free mining machine?

Fake GM: This new user... You can just take it out from your inventory and it will start mining like this...

Liam: That mined ore...

Fake GM(mind): Although this player looks like a newbie girl who has just entered this game, the trees nearby were cut down by someone. No, the purpose of cutting down trees is to leave the space to install the mining machine. So, this girl, no, this guy, is telling a lie.

Liam: This mining machine only mined some rocks. Is there anything you can use to make it mine better things? Your military rank is so high, so you must know how to help me!

Fake GM(mind): Only players above Silver Rookie rank can see other players' Military Rank. This guy must have other characters in his account. I think he wants to catfish me with that fake girl appearance. However, (aside) I'm not a real GM, neither.

Fake GM: I think there's a problem with your choice of mining location. Please follow me. *\*Using teleport to another forest*. Like this forest, I think it is very likely that there will be rare resources here. Let see, *\*chopping down the trees*, install our mining machine in this place... Great! We got a silver ore. Although it is not the rarest, it is also very precious. I can give this to you.

Liam: Oh, thank you! But wait, why does your mining machine say it's still usable?

Fake GM: This a test mining machine used by GMs. It has unlimited uses and is used for system testing.

Liam: Can I... try it out?

Fake GM: Sorry, this is only for GMs. I can't let a user try this.

Liam: Just give me a try please. You're so handsome and gentle, you won't refuse a girl's request, will you?

Fake GM: (hesitant) Okay, I can let you try it for once.

Liam: Wow, thank you! Haha, sucker! *\*Offline*

Fake GM: Hey! Give that back... he went offline so fast. Nice. Fish hooked!

## The Forth Scene

*The forth scene was in the previous forest where Liam mined before.*

Liam: Great job! With this unlimited mining machine I will get the rarest ore!

\*Chopping down the trees

\*Use the machine, Use the machine

Liam: What? Why I didn't get any ores?

\*Use, Use

Liam: I still didn't get the ores. Wait, why did I lose all of my currencies?

Liam: \*Examine the machine. No! This is not a mining machine but trading equipment! That jerk didn't mine but traded ore from his other account. So, he got the ore and didn't lose any use time. He designed that this equipment will automatically exchange all the currency to the opposite side and that's why I lost all of my currencies. Damn it!!

## The Fifth Scene

The fifth scene was happened in mother's bedroom.

Dad: \*Cough, Tennis Rackets. So much dust has accumulated on them. It was about ten years since our family went out to play tennis. What is this? A pair of glasses and a switch? \*put it on and open it by chance \*System Sound: Loading Connected. Welcome back to Macrocosm of Militaryskill, dear Diamond-Master user, Creating new character, You received a private message from the MoM system. Woah, hang on, what's going on here? \*use the item in the mailbox by chance \*System Sound: Congratulations, you get "Crazy Diamond". How do I shut this thing off?!

(Another side)Liam: Oh no, it's over. I was tricked by a cat-fisher. I need that bastard to return my currency back... Who is talking? \*looking around. No one's near me in game... Is Dad talking? What? (looks at notifications) The system noticed that someone nearby got the rarest ore? Could it be dad? Teleport!

Liam: Dad?

Dad: Oh, hello kind girl, could you please tell me how to exit this damn game?

Liam: I'm not a girl. \*Change the virtual character. I'm Liam.

Dad: Liam? I don't know how but I just opened this game. I think I just used your mother's account.

Liam: That's not important. Did you just get a Crazy Diamond??

Dad: Is this one? \*pick it out. \*Throw it to Liam.

Liam: *\*Throw it back.* Even if you are a new player, this ore can boost you to the **Diamond Master**. Everyone in the server would respect you and consider you a legend!! You would give this valuable thing to me? I can't give you anything in exchange.

Dad: You're my son. My things are all yours.

Liam: What? Oh... thanks. *\*Looking at Dad.* Wait! How are you already a **"Diamond Master"**?!

Dad: Diamond... master? What do you mean?

Liam: That's a very high rank in MoM. That explains how you got this ore. The possibility of **"Diamond Master"** getting it is higher. But you're still very lucky. How did you get this rank? No, did mother get it before?

Dad: Oh, now I remember. 10 years ago, your mother was "mining" for something. At that time your mother paid a lot of attention to this VR game. However, she became very busy with guild activities and raid battles. Gradually, she became obsessed with this virtual world, that's why she left our family.

Liam: That's why mother left us? I always thought that mother left us because you didn't know anything about technology. I'm sorry. I've been blaming you for all these years. I still have something to do in this game, Dad. I have to use this ore to do one more thing.

## The Sixth Scene

The sixth scene was in where Dad mined that rarest ore, also a forest.

Liam (using Dad's account): Broadcasting: Does any GM know what this **"Crazy Diamond"** is used for, I accidentally got it?

Fake GM: What? Someone already got it? *\*Text: I'm GM Holylight\_Rogue, and ...*

Liam: Fish hooked. *\*Text: GM, please come and help me about it.*

Fake GM(mind): That's the rarest ore. But it seems that this guy doesn't know how precious it is. That's my chance to get it!

*\*one minute later, Fake GM teleport to Dad*

Dad: Hey, I just want you to tell me what I need to do with this stone and how I can log out of here. I accidentally logged in, and I can't get out.

Fake GM: First let me congratulate you. This is a very rare ore. The player who got it can receive 10000 currency if he exchanges it to a GM.

Dad: I logged into this game by chance. I don't need any currency. Can I get some presents in the real world?

Fake GM(mind): What a boomer! Let me see if I can take advantage of him...

Fake GM: Well, you can use virtual currency to purchase real items. \*Take out the poster. For example, 10000 currency can purchase a bottle of tennis balls..

Dad: Yeah, that would be great! Thank you sir. Just send the tennis balls to 9450 Gilman Drive.

Fake GM: (mind)Gotcha! The tennis balls will arrive in ten minutes from Amazon. Thanks for using MoM!

10min later

Dad: I just got my tennis balls, thank you. I just want to say, MoM is a really great game.

Fake GM: You are very generous, sir. Farewell..... wait? What is that sound? A siren? \*Siren sound.

Liam (female character): Yeah, you are also very generous..... Sir, the police are coming for you. You will be arrested because of network scamming!

\*Fake GM's character disintegrates gradually. The ore comes back to Dad and Liam.

Fake GM: Bastard! You will \*electricity current sound, Holylight\_Rogue disappeared.

Liam: Although this world is virtual, there are still laws.

## The End

Liam: Dad, I'm not going to use this ore to get Diamond-Master anymore. Just keep that in your account.

Dad: Liam?

Liam: Dad, let's play tennis tomorrow. We haven't played together for a long time.

Scene.
